CAREER OBJECTIVE

To enter the web development industry in a position where I can improve my current skills and learn new technologies and languages that will assist me in establishing a long term career within the sector. This position will further my knowledge and understanding of the sector as a whole and allow me to develop my skills as a web developer in general.

EDUCATION

2010 – 2014 Hacettepe University • Ankara, Turkey
Bachelor of Arts in English Translation and Interpretation

PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER

reflectionsonthebay.com | Hobart, TAS

- Developed a website for an Airbnb villa using HTML, CSS3, JQuery plugins and Bootstrap v3.

devin-watson.com | Portfolio

- Designed it with Adobe Illustrator CC 2015 and developed using HTML5, CSS3, JQuery, SASS, Git/Github, Gulp, npm, focusing particularly on responsive design and UX with "less is more" approach.

pipeclaycottage.com | Sandford, TAS

- Customized a template client selected using HTML5, CSS3, SVG and Google Map API.

github.com/devin-watson

- Ability to use Git and GitHub repositories through command line.

TRANSLATOR

Hacettepe University, Office for International Education and Collaboration / February 2013 – July 2014

- Translated legal documents of Hacettepe University.

Dragoman Translation Agency / July 2013 – February 2016

- Translated documents in various subjects including marketing, cloud storage systems and medical.
- Worked as a short-term project manager.

Orient Translation / October 2015 – August 2016

- Provided freelance translation in legal and technical documents, and localization for popular Facebook game "Criminal Case"

Alfa Publishing / August 2013 – August 2016

- Translated "The Lives of the Brain" written by John S. Allen, published in Turkey in 16.04.2015 titled "Beynin Yaşamları"

SKILLS

- Strong knowledge of HTML5 with an understanding of semantic HTML, accessibility and ARIA.
- Good grasp of CSS3, responsive design, grid systems and cross-browser compatibility, and also of CSS pre-processors such as SASS.
- Ability to implement and modify JQuery and JQuery Plugins and pure JavaScript, and understanding of DOM and Object-Oriented Programming.
- Solid knowledge of Bootstrap 3.
- Strong organizational skills using Git/GitHub, Gulp.js and npm via command line.
- Familiarity with designing via Adobe Illustrator and using Adobe Photoshop and GIMP.
- Familiarity with AngularJS, Node.js, Wordpress, PHP and MySQL (MAMP stack).
- Operating Systems: Mac OS X (primary), Windows (XP, 7, 8 and 10) and Ubuntu (familiar).
- Proven time management and problem solving skills achieved through five years of experience as a translator.
